

# System Requirements

As CONNECT is a continually evolving software solution there are a few minimum system requirements required to ensure optimal user experience.

## System Requirements:

- Internet connected computer. It is best to use a high-speed connection and a windows or mac based computer. While linux based computers may work, we do not actively support this platform.
- Modern web browser. It is recommended to use a minimum of Chrome v.54, Firefox v.48, Internet Explorer v10, Safari v.10
- Minimum screen resolution of 1280x720. CONNECT works better at larger resolutions with a minimum screen width of 1280 pixels.
