

How to View if a Contact is a Hard Bounce

If a specific contact is complaining that they are not receiving their email, they might have been flagged as a hard bounce.

To view if a contact has been flagged as a hard bounce by UMPIRE, follow these instructions:

1. Navigate to the People tab in the Target screen

CONNECT - Sales Demo

KNOWLEDGE BASE

Dashboard Compose **Target** Automate Deploy Analyze

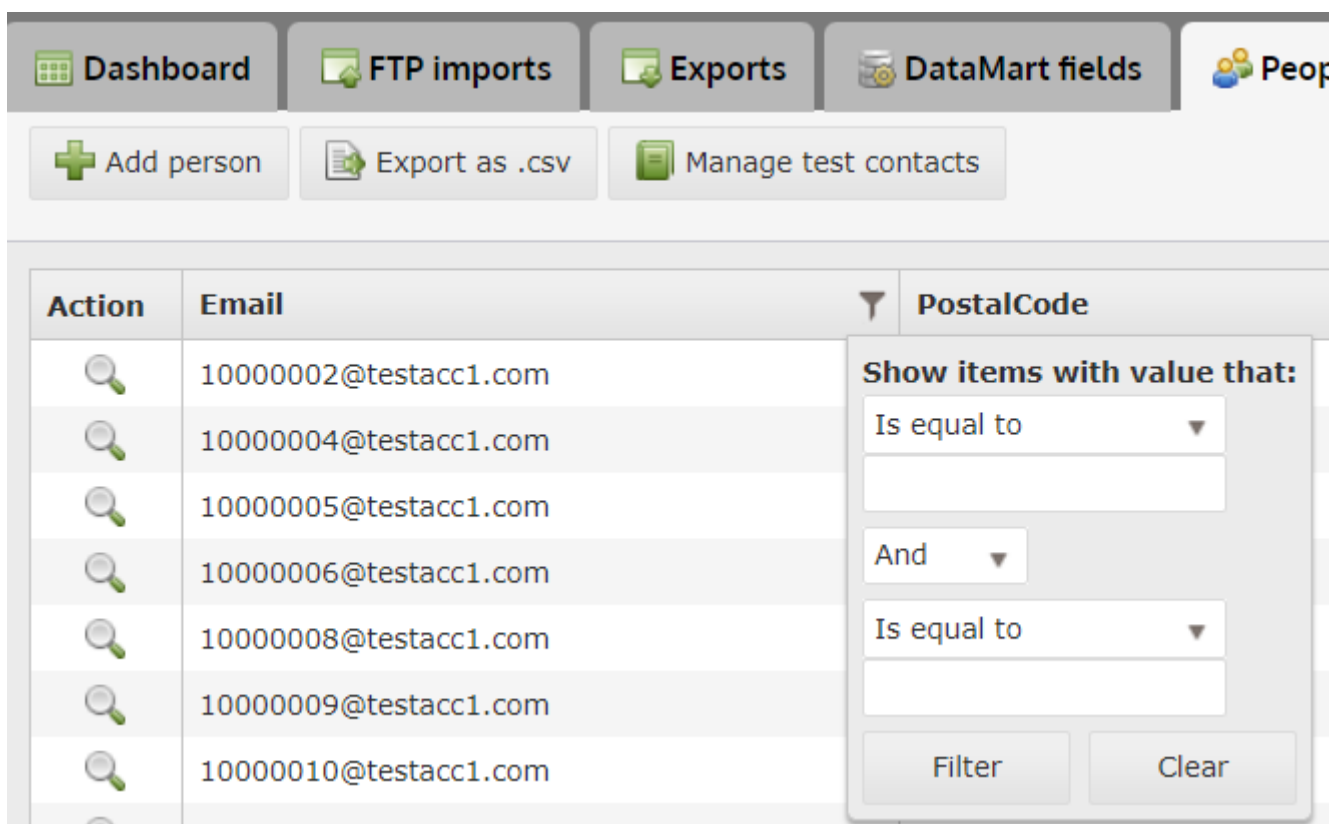

Dashboard FTP imports Exports DataMart fields **People** Data extensions

Add person Export as .csv Manage test contacts

2. Using the filter options for the fields, Enter in Criteria so that you can locate the contact you wish to view

The screenshot shows a web application interface for managing contacts. At the top, there are navigation tabs: Dashboard, FTP imports, Exports, DataMart fields, and People. Below these are three buttons: Add person, Export as .csv, and Manage test contacts. The main area displays a table with columns: Action, Email, and PostalCode. The Email column is currently selected, and a filter dropdown menu is open. The dropdown menu has the title "Show items with value that:" and contains two filter rules, each with a dropdown menu set to "Is equal to" and an empty text input field. The first rule is followed by an "And" dropdown menu. At the bottom of the dropdown are "Filter" and "Clear" buttons.

Action	Email	PostalCode
	10000002@testacc1.com	
	10000004@testacc1.com	
	10000005@testacc1.com	
	10000006@testacc1.com	
	10000008@testacc1.com	
	10000009@testacc1.com	
	10000010@testacc1.com	

- Tip: The most common way to locate a contact is email address. Just click the filter option on your email field and type/paste in the email address of the contact you are trying to view.

3. Click on the "View" icon next to the Contact

4. On the Right Panel, you can view if a contact is a Hard Bounce
